

spring 2021 Semester Registration of class subjects to take

- **spring 2021 Semester registration period** : April 12(Mon)-23(Fri)
changing registration period : April 26(Mon)- May 7(Fri)

★ spring 2021 Semester, the embodiments of the class depends on the class subject. It will be posted on Web Syllabus about implementation method and contents of each class, please confirm it, please confirm it by your supervisor after beginning the classes. Regarding of taking the online class, please refer the Tohoku University class guide (Information for student)

- ◆ Before registration of class subjects to take, consult with the direct supervisor fully about class subjects that you wish to take and to register, plan own registration schedule, and obtain confirmation from your direct supervisor.

【Website course registration】 (class subjects opened in GSIS) **April 12(Mon)-23(Fri)**

Registration of class subjects opened in Graduate School of Information Sciences is made from the "Student Affairs Information System (Web for Graduate Students)" Please read operation manual (Abridged version) for students of website course registration.

【Other department or other research course registration】 **April 12(Mon)-23(Fri)**

When you wish to take subjects opened in other department or other research course, **Reply on spring 2021 semester other department or other research course registration. Confirm that there is no cancellation of the course and register it.**

Please be sure to register who participate in the Advanced Graduate Program.

Google form Other department or other research course registration

: <https://forms.gle/hfBQmuozRpFbSnuZ8>

You need to log in with Tohoku University's university-wide email (DCMail)

【All-campus educational subjects registration】 **April 12(Mon)-23(Fri)**

When you wish to take all-campus educational subjects (including subjects relating to school teaching), the "Application for course registration of all-campus educational subjects, etc." is necessary in addition to "Registration form", submit it by email. Please read the all-campus educational subjects procedure guidelines.

【Intensive courses registration】 (GSIS Course Offered)

Intensive courses for which the time schedule is not yet determined will be posted later on the homepage of the Graduate School of Information Sciences. Notification for courses registration and course implemental methods and course hours will be notified on the website. Confirm that there is no cancellation of the course and register it.

【Change of registration】 (GSIS Course Offered) April 26(Mon)- May 7(Fri)

If there are any changes after the web registration period, **reply on spring 2021 Semester change of registration for the course. Any change of registration is not allowed after the changing registration period is over.**

Google form Change of registration : <https://forms.gle/5KZQDHsSNfZecCia7>

You need to log in with Tohoku University's university-wide email (DCMail)

【Internship registration of training courses】

Registration is unnecessary for "Internship training",

The students who wish to take the internship training course read the [internship training course essentials](#).

<Master Course>

Registration is unnecessary for "Seminar", "Training A", and "Training B". See page 4 for detail

Registration is unnecessary for "Advanced Computer Training (Applied Information Sciences)".

<Doctor Course>

Registration is unnecessary for students who do not take class subjects.

Registration is necessary for students who take class subjects. Registration is unnecessary for "Doctor course base training", "Doctor course specialized training A", "Doctor course specialized training B", and "Doctor course seminar". See page 4 for details.

◆ Notification for course hours and the change of the classroom will be notified on the homepage of the Graduate School of Information Sciences website. Be sure not to miss it.
